

Telephone Conference: CoC Drafting Group

22 March 2018

Summary Report

Drafting Group members gave an update of their activities and work. The sub-group on controllers and processors have met and continue to work on their text. The sub-group on anonymization/pseudonymization are finetuning the style of drafting. A first draft of the glossary has been completed, with next steps comprising of refining the document.

It was agreed that the next face to face Drafting Group meeting will take place on Monday 30th – Tuesday 31st July in Brussels.

The topics of derogations and Article 11 for pseudonymized data were discussed. It was agreed that more in-depth discussion regarding Article 11 is needed given that the spirit of Art. 11 relates to instances where reidentification cannot occur, which is not the case in the context of health research.
